PROFESSIONAL SUMMARY

Senior Frontend Engineer with over 4 years of hands-on experience building responsive, high-performance web and mobile applications. Proficient in TypeScript, JavaScript, React.js, Next.js, and React Native, with deep expertise in state management, RESTful API integration, and translating complex design systems into scalable, user-friendly interfaces. Experienced working with UI libraries including Tailwind CSS, Ant Design, Material UI, React Bootstrap, and React Native Paper. Collaborative team player who thrives on solving challenging problems and consistently delivering quality user experiences.

WORK EXPERIENCE

Senior Frontend Developer

CoderChaps | December 2025 – Present | Remote

- Built and maintained the Florida Online Security Training platform using Next.js and React (Vite), covering CRM, payment processing, and full course management workflows.
- Integrated Zoom SDK and Amazon IVS to power live instructor-led virtual classes and real-time training sessions with high reliability.
- Collaborated closely with backend engineers to design and consume RESTful APIs, ensuring smooth data flow across the platform.

Web Developer

O3 Interfaces | October 2024 – December 2025 | Karachi, Pakistan (On-Site)

- Built the UBL (United Bank Limited) website using Next.js, Tailwind CSS, and Directus CMS, integrating dynamic content management via REST APIs.
- Designed and developed custom ATM interface screens using HTML, CSS, and JavaScript, with a strong focus on responsive layout and high-performance rendering.
- Worked in a structured on-site environment, coordinating with designers and project managers to meet tight delivery timelines.

Senior Frontend Developer

Technottix | September 2020 – September 2024 | Karachi, Pakistan (On-Site)

- Built and maintained multiple production-grade web applications using React.js, Next.js, TypeScript, and Redux across a 4-year tenure.
- Implemented efficient server-state management using RTK Query and TanStack Query (React Query), significantly reducing redundant API calls and improving page load speeds.
- Developed cross-platform mobile applications using React Native, shipping to both iOS and Android.
- Improved application performance and overall user experience by adopting modern React patterns such as code splitting, memoization, and lazy loading.
- Actively participated in code reviews, mentored junior developers, and contributed to best practice documentation within the team.

Frontend Developer

CFE Solutions | December 2022 – December 2023 | Remote

- Developed and maintained the SmartFolder application using React.js and Redux, delivering a reliable document management experience.
- Integrated RESTful APIs and built complex, data-driven forms using Ant Design components, improving data entry efficiency for end users.

- Managed asynchronous data flows using Redux Toolkit, keeping application state predictable and easy to debug.
- Ensured responsive, cross-browser compatible interfaces across all major browsers and screen sizes.

Live Projects

Platform Florida online Security Training | <https://platform.floridaonlinesecuritytraining.com/>

Backoffice Florida online Security Training Dashboard | <https://backoffice.floridaonlinesecuritytraining.com/>

Purple Direct Website | <https://purple-direct.vercel.app/>

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Iqra University | 2018 – 2022 | Karachi, Pakistan

CGPA: 3.1 / 4.0

TECHNICAL SKILLS

Languages & Core Technologies: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, React Native, Redux, Redux Toolkit

State Management & Data Fetching: Redux Toolkit, RTK Query, TanStack Query (React Query)

UI & Styling: Tailwind CSS, Ant Design, Material UI, React Bootstrap, React Native Paper

APIs & Integrations: RESTful APIs, Zoom SDK, Amazon IVS, Directus CMS

Tools & Practices: Git, GitHub, Responsive Web Design, Performance Optimization

LANGUAGES

English – Professional Working Proficiency | **Urdu** – Native / Bilingual Proficiency
